Dear Friend,

As you are aware the ANC Education Department has recently completed a Discussion Document containing a Policy Framework for Education and Training. The document offers a vision for a reconstructed and democratic system, capable of delivering quality lifelong learning to all citizens. It does not present detailed proposals for implementation.

Over the next 2 months the ANC Education Department will be focusing on two major tasks. These are:

- (i) To refine the policy document
- (ii) To develop a set of implementable strategies in the field of education and training which can be fed into a new Education and Training Ministry from the beginning of May.

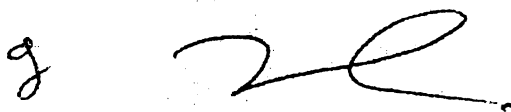

The ANC Education Department has set up a number of Task Teams, coordinated by the CEPD, to assist with the development of an implementation strategy for each part of the education and training system. These Task Teams are comprised of a small number of people. The Task Teams have been asked to hand in interim reports by 30th March and a final report by 20th April.

The ABE Task Team would like to invite you to a meeting on 28th March from 10.00am - 4.00pm to comment on the main recommendations which the ABE Task Team will be considering. We believe that your feedback would be invaluable before writing the final report.

Please let Mahale at the CEPD know by the 21st March whether you will be able to attend or not. The meeting will be held on 3rd Floor, 76 Juta Street, Braamfontein, 2017.

We look forward to hearing from you.

Yours sincerely

JUDY FAVISH
(Task Team Co-ordinator)
